

INTERMICA

FURBISHURE®

## INTERMICA PRODUCTS

InterMica is an architectural specialty glass crafted from carefully selected flakes of colored mica layered between sheets of glass or mirrored surfaces. These components undergo a patented process in industrial ovens, producing a translucent material that evokes gemstones or guilloche patterns while embodying a distinctly abstract and contemporary aesthetic. The true allure of InterMica lies in its capacity to capture and reflect sunlight, effortlessly transforming any space into a captivating symphony of light and color.
